IRANA's MAIN BOULEVARD TRYPTIC

Gjergj Bakallbashi, architect, Tirana/Boston

The PYRAMID and the LAWN, a continuous public space in the center of Tirana, Albania
The former museum of the Communist Era Enver Hoxha, now an empty building, is widely used by youngsters to climb and take photos of Tirana. The lawn next to it, has only been recently replaced a restricted, govenment use only, area. Both the building and the space are part of an unprogrammed public sequence, that has taken different uses.
