

A LONG AND COLLECTIVE PROCESS

Urban acupuncture

2013
Cabanon Vertical started to get involved in Bellevue, the social housing part of Saint-Mauront district.

2015
After 2 years of research, the first 2 Geckos are built at a 3-month interval as « urban-transitory form »

2017
4 years later, Gecko #4 is designed as a sustainable form, as the outcome from a long and collective process

2018 ?
Gecko #3 was supposed to be built in 2016. The project, already co-designed, is on hold due to an institutional impasse

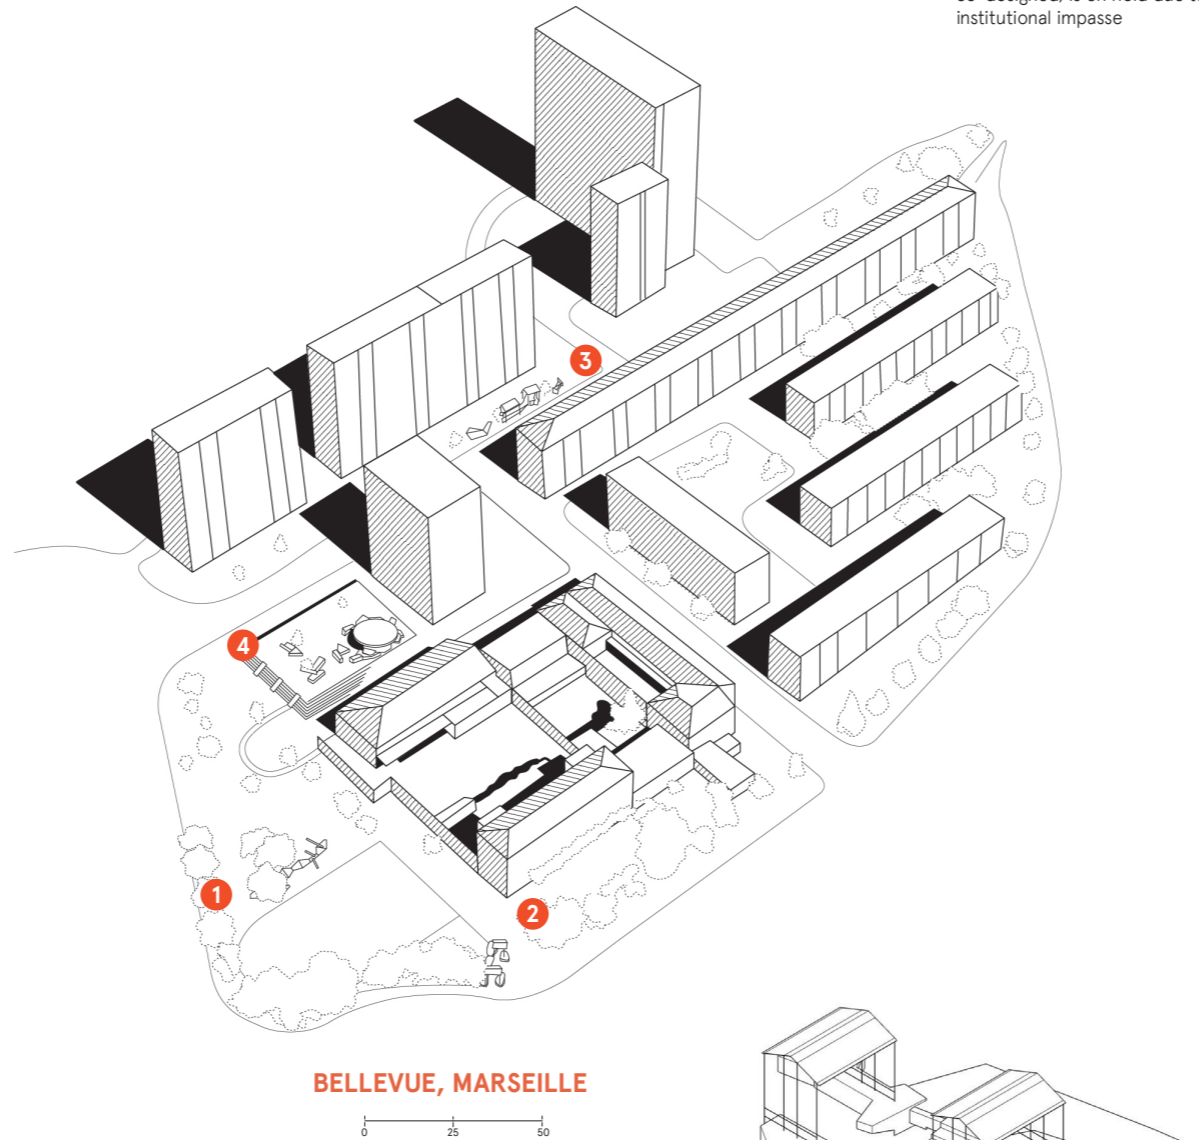

Spring 2016 - In situ, a « street-office » to present the first sketches to the inhabitants

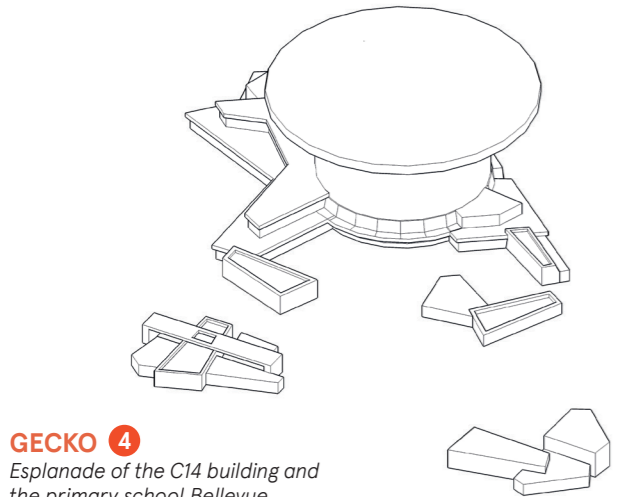

April 2017 - Three young inhabitants involved in the building process (social reinsertion)

May 2017 - Planting session with children of the primary School Bellevue

BELLEVUE, MARSEILLE
