

PANEL 3 ENVIRONMENTAL IMPROVEMENT. CITIZEN PARTICIPATION

Panoramic view

Looking East.

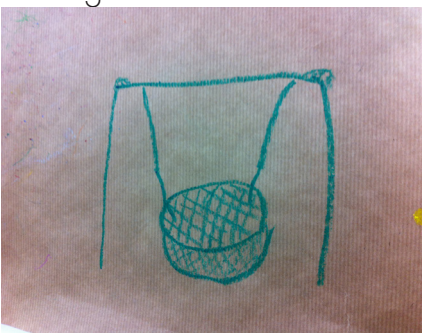

Looking South-East.

Looking South.

Aerial view.

Photograph looking south taken at midday from the fifth floor of the new residential unit.

The new transparent fence of the school connects at level with the garden plaza. The old commercial building in process of renovation will add all-day activity.

Activation of effective waste disposal at the south corner shared with the new building waste disposal. New Led lighting favours sustainability.

After elimination of physical barriers it is created a harmonious relationship with the peripheral areas and adjoining natural settings.

Citizen have been involved in the conception and maintenance of the space. High degree of acceptance of the plaza by neighbours and citizens.
