The second action contemplates the coverage of the sports court with the aim of generating a new polyvalent space with a sportive character, but above all social and cultural, protected from the rain and protected from excessive sunshine in the summer.

This work, due to a very strong local reinvention, has generated many expectations in the neighbourhood and will allow the reappropriation of the 'Espai Pere Grau' community.

The implantation of the prototype (e)co, has allowed to reconfigure the boundaries of the area generating new facades and giving a certain character of a square, blurring the back condition that impregnated this space (previously used as parking lot).
