

At this stage it is important to restore the historically laid structure of the park and return the long-lost public space.

This project is the first step towards the overall reconstruction of the Kontraktova Square under the project «Kyiv Living Room» of the author's collective, the winner of the CONTR/ACT competition, which provides for creation of a brand new pedestrian space.

Conditionally the new square #3 can be divided into two parts – a transit alley and recreation ground. The path from the metro station “Kontraktova Square” exit towards the monument to Skovoroda and the Gostiny Yard was made as a paved alley. A wide transit zone allows to move comfortably even during a rush hour, despite the dense pedestrian flow.

In a place where the kiosk's have grown in recent years, an alley of ash trees has been planted to symbolize that change in values in a society has come and it is irreversible.

In order allow users to reconsider the damaged, the project provides for installation of the mobile street chairs, which everyone can arrange at will, since the living room is the space of the citizens of Kyiv, in which they are the owners.

RENOVATION OF SQUARE #3 AT KONTRAKTOVA project and implementation process
