Transformer is a space of transformation through the modern art with consideration for our own traditional culture and past.

It is a comfy space for aesthetic, public, social and cultural projects.

Transformer was created in 2017 by the group of active, young but experienced people, businessmen and lawyers.

Transformer located in the center of the city consists of 2 locations: a cozy and comfortable indoor space and a beautiful park.

Everyone who wants to take a break, to have a business meeting, to have a free legal advice, to play chess with a businessman or public official, or with friends, to get a working area, a computer and internet access or just to relax and to enjoy nice music should visit Transformer located in city center.

Guests are treated with delicious coffee and biscuits here.
