The garden in front of the cafeteria located in the historic building

>
The new public space between street, hospital main entrance and garden.

<
The urban greenhouse device on the rue de Sèvres allows a strong visual relationship between the public space, hospital reception areas and the garden.

The new public space between street and hospital

« I made this painting to amuse the sick children, now and in the future » Keith Haring

>
The new pedestrian walkways-connecting the streets of Vaugirard and Sèvres
