

1 SOURCEANE ESPLANADE

Situated in the core of the urban plan and achieved in 2016, the SOURCEANE aquatic center esplanade is the main esplanade of the Raquet eco-district. It articulates the 3 main parks : the truck-farming park, the urban park and the active park.

The paving is in natural blue stone paving and the pattern is set by the cleaved pavements and the lights inlaid in the pavements.

2 PAULETTE DEBLOCK PRIMARY SCHOOL ESPLANADE

Achieved in 2015, the primary school esplanade is located in the urban park. By a composition of grey concrete slabs and corten steel benches the esplanade looks linear and dynamic.
