Taasinge Square - an urban rainforest park

The urban space "Taasinge Square" is situated at the heart of Copenhagen's first climate resilient neighbourhood. As a green oasis in a densely populated city district, it gives the area a distinctive green and sustainable landmark. The square demonstrates how rain water handled above ground can inspire to new and interesting urban qualities supporting social interaction and activities. Green urban development is climate adaptation which adds value to our shared urban spaces.

City map - location of Taasinge Square close to Copenhagen city center

The Plaza

THE SUN HILL
A south-facing sloping surface serves as a warm and inviting lawn

THE PLAZA
The middle of the square is where the sun shines the most. Café life and play have the best conditions here

THE RAINFOREST
The lowest point of the square with lush vegetation
