

OFFF BATALHA

PORTO. 2015

. C Plan

Brief

The challenge was clear: creating an ephemeral space for the interaction of participants at OFFF Porto 2015 festival, and between them and the city. The space to create should also ‘announce’ the occupation of Batalha Cinema by this festival.

Mission

This installation intends to communicate to the city that public space is a privileged stage for social interaction and that, in order to keep ensuring it, considering its climate is growingly crucial.
