STREET ART BORÅS SWEDEN 3-6th OF SEPTEMBER 2015

Measure the Immeasurableness by DALeast – The University of Borås

From a boring, insipid and crumbling plaster wall to a magnificent piece of art. The enormous monochromatic eagle of DALeast is a fantastic addition to the cityscape of the Textile Fashion Center that nicely interacts with the sculpture House of Knowledge by Jaume Plensa.

This spot has transformed from previously unconnected fragments to a theatrical whole entity.
