

J150

The result of the office garden of Bolduc, is a result to be proud off. The different levels of grass in the garden and the seating areas have created a secure environment. Although it is a public space in an office area, the garden with the various seating areas made of wood, the plants, the grass, the pavement, create a cozy atmosphere. In addition, the garden offers the features users need, like power points. And the Led-lights in the benches gives a safe feeling during the evening.
