

**PATTERNS PLANTATIONS**

- ▲ *Pistacea lentiscus*
- *Pitosporum tobira nana*
- *Lonicera nitida*
- *Escallonia rubra*
- *Buxus sempervirens*
- *Pennisetum setaceum*
- *Lygeum spartum*
- *Stipa tenacissima*

THE VEGETATION SCHEME OFFERS AN OPEN PARAMETER SYSTEM ENABLING A HOST OF FORMATS FOR DIFFERENT USES, PEDESTRIAN CIRCULATION, AND ACTIVITIES. THE PARK'S DESIGN IS SPAWNED BY A RATIONALE BASED ON RELATIONSHIPS BETWEEN LAWNS, EVERGREEN SHRUB HEDGES, AND MASSES OF ORNAMENTAL GRASS. THIS RESPONDS TO THE PLANTS' PHYSIOLOGY AND TO ADAPTATION TO CLIMATE, NEEDS FOR WATERING, AND EFFICACY IN MAINTENANCE. THE RESTRICTIONS STEMMING FROM THE FACT THAT THE PARK COVERS THE STATION ROOF AND TRAIN TRACKS BECAME A DESIGN OPPORTUNITY
