Parco del Tevere a Magliana

The first km of Tiber Park in Magliana, Rome

a Green-blue infrastructure for the regeneration of Magliana district

PROGETTO Project

The Tiber park in Magliana district, Roma

ANTE OPERAM

POST OPERAM

TECHNICAL DATA OF THE WORK
INTERVENTION AREA: 1.25 hectares
ACTIONS HAVE BEEN CONCENTRATED IN THE MOST CORRESPONDING EMERGENCY Districts
COST INVESTMENT: 800,000 € in three phases, ie 47.34 € per square meter (when compared to the total area of 40,258 m², € compared to the total area of 40,258 m²)

SUSTAINABILITY:
- Use of pervious asphalt made with recycled materials
- Reuse of an old bridge, made with a technology for old concrete
- Use of materials certified by the Department of Land Use and the Environment
- Recycling of water: reuse for irrigation and to produce energy
- Creation of turf to support the photovoltaic panels to produce 7 kwatt
- Increase of biodiversity: 53 new tree species, 1714 m² of meadows, 830 shrubs of spontaneous plants, in the water garden was found a termite nest, 1500 species of birds, ducks, porcupines
- Improvement the ecological network and pollutants (pesticides and waste)

OTHER ELEMENTS OF ORIGINALITY:
- Launching a management-maintenance workshop, with tutoring, for one year
- Program with the Academy of Art in Rome for works of children in the Park of the river
- The management of the Park starting as a “catalyst” space for energy and innovative initiatives of citizens and schools
- Private interventions, including the settlement of the bike club that contributes to the maintenance
