

### Today Urban Space 100 has very eventful life:

Public discussions, open lectures, creative nights, projects and books presentations, movies, music events, panel discussions, masterclasses, competitions (f.e. national tournament for coffee barista), meetings for sharing the ideas and new initiatives. All events in Urban Space 100 are **free** for visiting and arrangement.

Urban Space 100 is the step forward to the achievement of the “Teple Misto” Platform mission: to create new opportunities for self-fulfillment of Ivano-Frankivsk citizens with the aim of improving living standards through increased capability, trust and ambition.
