CONSTRUCTIVE CONDITIONING

Constructively, the special difficulty of maintaining an existing building that is literally placed above our proposal arose. We had to make an excavation by batches to build a concrete ring six meters around the base of the mill.

MAIN PROGRAM

To improve the conditions for use of the public square, a local service associated with it in the same grade as support for the improvement of the activity in the same projects. This space will provide direct access to useful information for the visitor: Possibilities of accommodation, food and catering, cultural, sporting, recreational, entertainment etc., as well as procedures to enjoy them (contacts with companies, reserves and other actions),
