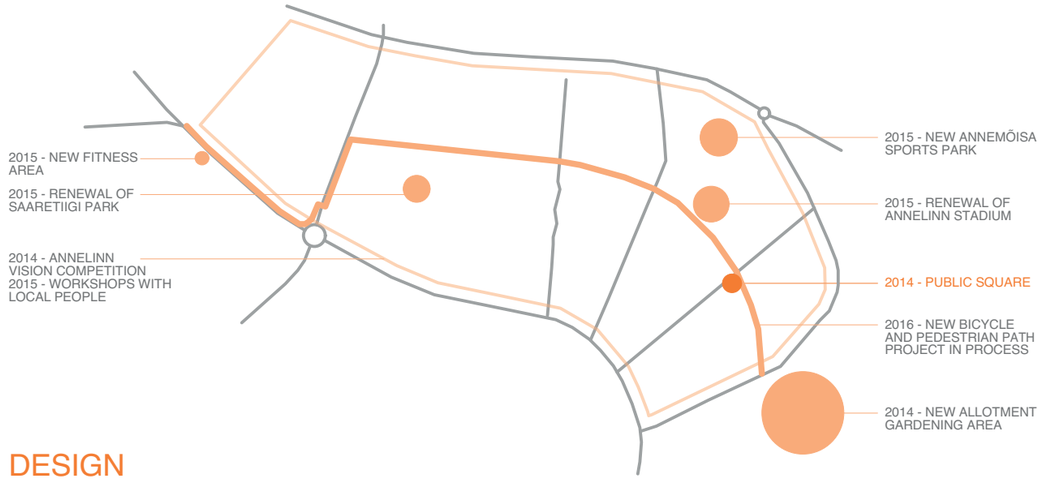
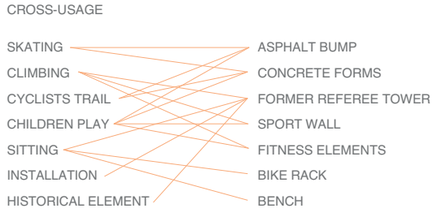
## PUBLIC SPACE DEVELOPMENT IN ANNELINN /// recent years



## DESIGN

The compact spatial program of the square is achieved with diverse simple surfaces, playful asphalt markings and smart architectural forms and furniture. The design itself leaves room for imagination, defining as little as possible how the space should be used. The solution creates various possibilities of cross-usage and mixes different user groups, creating social diversity and synergy.


The result is a minimum intervention with maximum outcome. The place itself has been well accepted by the local community and is in active use.
