Photographs of the finished work

Sheltered picnic areas, individualized from the car parks

Main northern entrance and bookstore square

New indigenous stone-pine alley reinterpreting the former uncharacterized exotic Cedar north wing alley

Hand-arranged dry stone wall terracing the steep ground to promote infiltration, prevent erosion and functioning as a network of benches

Main northern entrance and bookstore square

Comfortable pedestrian footpaths, suited for the disabled

Terraced steep naturalized resting areas, sheltered or shaded

Wide pedestrian alley near the northern access to the enclosure

Sheltered picnic areas, individualized from the car parks

REQUALIFICATION OF THE NORTHERN SURROUNDINGS OF FATIMA SHRINE
