03 OPEN AIR AMPHITHEATRE PRODAC SUL

J215

This amphitheatre is not only the central public space, by its location,but also as a symbol of the ability of the action and achievement of its residents. On the other hand, the new staircase and the localization of it in the garden, allowed the creation of a necessary access and a more efficient and diversified use of the garden that, before, was merely contemplative.

The empowerment of the population, by the collective action, translates into a great involvement, responsibility and motivation of residents, developing consciousness of their social rights and giving them the sense of citizenship and freedom in the decision and control over their neighbourhood.
The structure of a strong community sense will allow the growth better neighbourly relationships and greater social inclusion by the occupation of a highly aged and unemployed population.
