01 OPEN AIR AMPHITHEATRE PRODAC SUL

J215

In an Assembly with the residents of Prodac Sul organized by the local association and Ateliermob it was decided, by vote, among 8 proposals submitted, that the priority of the neighbourhood was to reabilitate the garden by building an open air amphitheatre with the municipal financial BIPZIP programme.
This project aimed, in parallel, to develop a process of support and incentive for the residents involving them in a participative practice by taking decisions on the neighbourhood.
